Clear space

Use a minimum clear space equal to the emblem inner-diameter radius around all sides of a lockup.

Optical rule based on the approved emblem proportions; keep text and other marks outside this protected area.

Minimum digital sizes

- Full primary / stacked lockups: 96 px recommended minimum width.
- Descriptor lockup: 220 px recommended minimum width.
- Emblem-only: 16 px favicon; 24 px preferred for UI.
- At very small sizes, use the approved emblem-only asset rather than redrawing the mark.

Minimum print sizes

- Full primary / stacked lockups: 25 mm recommended minimum width.
- Descriptor lockup: 45 mm recommended minimum width.
- Emblem-only: 8 mm preferred minimum height for clean print reproduction.
